

GLORY

## G-200

Self-service solution

The G-200 from GLORY enables your customers to do more for themselves, allowing you to optimise your teller resources and provide a new branch experience. Consisting of a banknote recycler, coin recycler, cheque processing module and other optional functions, G-200 is able to process a wide range of transactions that currently ATMs can't deliver.

**G-200 enables your customers to choose to carry out these transactions independently or with the assistance of in-branch staff, allowing you to optimise staff resources and costs. Integrated with your branch systems, G-200 is able to support all banking transactions your customers require.**
