The PITBULL uses the De 50 - one of the world's best and reliable note counting devices in the market. It has multiple detection options for maximum flexibility of bank note processing.

Efficient processing

600 notes per minute, the DE 50 counter sensing system ensures the ultimate in fast, efficient and reliable banknote processing. It is also possible to count wide range of note quality with ease and simple operation

Highest Accuracy

Wide choice of counterfeit and size detection provide the highest accuracy of fraudulent note detection and denomination reading

Multicurrency Selection

Selection between 5 currencies per template.

Multi denomination

High Speed Processing

The DE 50 is able to count, authenticate and record upto 600 notes per minute.

Escrow Capability

With an escrow capacity of 100 note, the user can rest assured that the money can be verified before it can be deposited into the safe.

Easy Service & Maintenance

There are 2 headers (top and back) that can be easily opened and allow the user to clean the rollers and sensors.

Solution Software

The graphic user interface can be customized to suit customer requirements.

Proven Technology

The pitbull has been in the market for a number of years and has proven its reliability over time.

PITBULL
