## DE-50

Smart deposit module

Delivering fast, secure and reliable performance, the DE-50 is designed to be used either as a stand-alone module or as part of an ATM/self-service solution. Its compact size means you have the flexibility to offer smaller footprint products to customers who are challenged by available space.

## A high speed, high performance bulk deposit module with a compact footprint for notes and coins in envelopes.

When it comes to the deposit of notes, the DE-50 provides complete confidence with fast, secure and reliable performance. Utilising the proven Glory GFS series value counter mechanism, the DE-50 delivers accurate counting with high volume transaction speeds of up to 10 notes per second.

### One of the fastest deposit modules of its kind

- Unique, high-speed note validation of 10 notes per second
- Minimal time needed for storing counted notes

### Handles up to 64 denominations

Including USD Dollars, EURO, Russian Ruble, Brazilian Real and Indian Rupee. The DE-50 also handles envelopes, cheques and coins – a feature unique to this mechanism. All media is transferred to the same cassette.
